# Building for the Future November 2008 Update

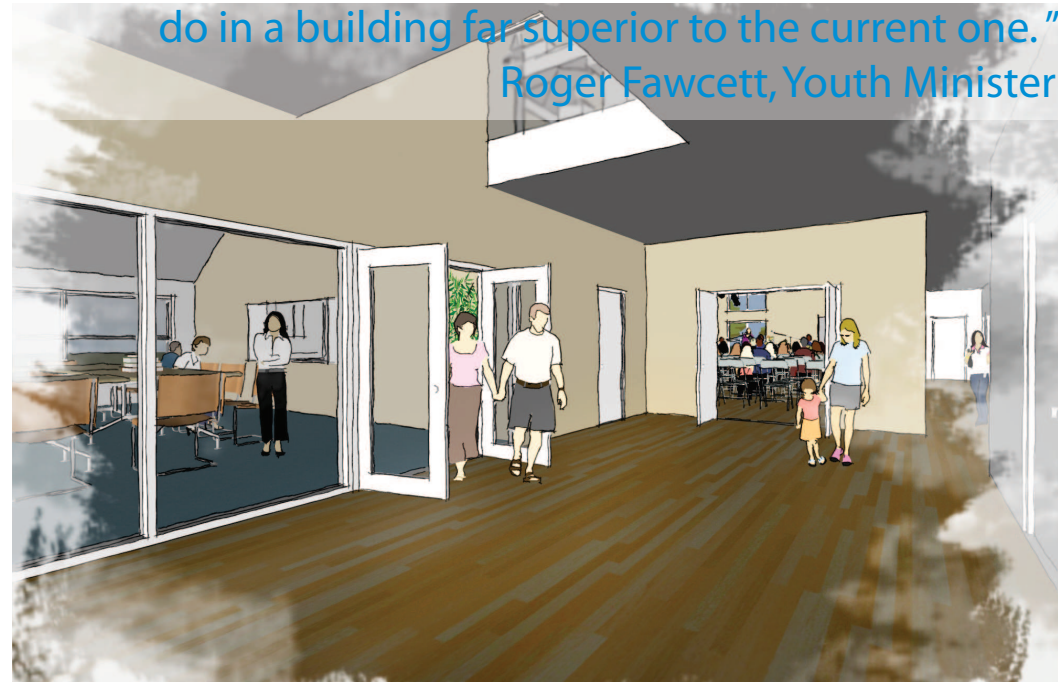

## Where are we up to?

In September 2008 the PCC appointed a Design Team to take the project forward. We are currently working with this design team to finalise the plans for the hall, including final drawings, structural drawings and a cost plan, so that we will be able to out to Tender in early 2008. After a long wait - our new hall is getting closer!

Financially, we are about half way there. If you are able to make a one off gift to the project, to give over 5 years, or to offer an interest free loan, please fill in the form on the back of this leaflet, or see our project treasurer, David Richards.

Inside this update are some pictures of how the new Church Hall might look inside as well as some reflections on some future users.

*"We will be able to do everything we already do, but also we will be able to improve on everything we do in a building far superior to the current one."  
Roger Fawcett, Youth Minister*
