6th April 2010

Despite the harsh winter and some difficult access issues we remain on course for completing the new church hall at the end of July 2010. We are currently working to complete the external walls and have commenced installing the roof. Inside the building, mechanical and electrical works are now underway.

Some of you may have noticed that we have formed an access road to the rear of the site in order to progress the works, we can assure all concerned that this area will be re-instated to the satisfaction of the church and parish council.

We would like to take this opportunity to thank our immediate neighbours for their patience and assure all that we are working very hard to minimise disruption. Should anybody have any concerns in connection with the construction works, please do not hesitate to contact me and I will do my best to resolve any issues.
