Dear Friends at St Johns Church

This is just a short note to thank you very sincerely for the recent gifts which you have sent for our support. Your partnership with us through prayer and sacrificial giving is a real encouragement to us as we start out in this new ministry to International Students.

As you probably already know, we have been incredibly blessed in these first weeks in Bangkok. The children are very settled in their new school and beginning to make some lovely friends. The student work has started incredibly quickly and there are now four INTER student bible studies meeting on three different campuses. All of the students coming along are Thais with very good English and our prayer is that they will begin to catch the vision for reaching out to students from other nations who have joined their courses. Please do continue to pray for the students of Bangkok and particularly for the international students we are seeking to reach.

With our love in Jesus Christ

*Johnny and Ann, Matthew, Bethan and Joshua*
